Education

CMR College of Engineering and Technology

Bachelor of Technology in Electronics and Communicaton Engineering

Hyderabad, India

Aug 2019 - Jul 2025

Experience

Full-Stack Web Developer (MERN Stack)

- Built various personal fully functional responsive web applications using react.js, next.js, Redux.
- Worked on backend services like Google Cloud Services, MongoDB, Aws- DynamoDb.
- Built both SSR and CSR web applications, also built Rest-API's

Jun 2024 - Jan 2025

Projects

Airbnb-Clone (Full-Stack) | [Link](#) | [Code](#)

Tech-Stack Used : Node.js, Express.js, TailwindCSS, MongoDB, Mongoose, Google Cloud, Ejs, Nodemon.

- Replicates the core features of Airbnb, allowing users to book and list properties

Version-control: Git

Deployment: render.com

FreshBasket (Full-Stack) | [Link](#) | [Code](#)

Tech-Stack Used : Node.js, Express.js, TailwindCSS, MongoDB, Mongoose, Google Cloud, React.js, Redux.

- Allows users to list Order/Sell grocery products online, know the status of the products ordered/sold

Version-control: Git

Deployment: Netlify, render

AmazonClone (Frontend) | [Link](#) | [Code](#), MyntraClone (Frontend) | [Link](#) | [Code](#) ,

Tech-Stack Used : TailwindCSS,, React.js, Redux, Json-Server

- Allows users to list Order products online, know the status of the products ordered.

Version-control: Git

Deployment: Netlify,render

Soil Classification using SVM | [Link](#)

Tech-Stack Used : MatLab, Python

- A Machine Learning Algorithm distngushes the type of soil based on the input image provided.

Version-control: Git

Skills

Languages : C, C++(DSA), Python, JavaScript.

Front-end: Html, CSS, React.js, Redux, Next.js.

Backend: Node.js, Express.js, MySql, Sql, MongoDB, Mongoose.

Tools/Frameworks: TailwindCSS, BootStrap, Ejs, Jwt-token.

Data-Analysis: Pandas, Numpy, Matplotlib, Sql, MS-Power Bi tool.

Others: Familiarity with Matlab, React-Native, Assembly Level language, Angular, Vue.

Achivements/Certificates

- Top 5 coding performer of Being Zero Organisation in DSA | 2021 [Performance](#) | [Hackons](#)
- Additional fun-projects : [Basic Calculator](#) | [CurrencyConverter](#) | [Rock-Paper-Scissors Game](#).
